-END-

PlantNebraska is a 501(c)3 nonprofit founded in 1978 that plants Nebraska for healthy people, vibrant communities and a resilient environment. We do this through tree planting, garden making, education and community building. We value our partnerships with our more than 100 affiliate sites throughout the state, more than 1,200 members and with the Nebraska Forest Service and the Institute of Agriculture and Natural Resources at the University of Nebraska. Over the last 30 years we've distributed more than \$10 million in grant funds to communities across the state to help make Nebraska a place where everyone wants to live, work, and play.
