

# GREENER TOWNS

## Rose Hill Elementary School

Rose Hill Elementary partnered with PlantNebraska through the Greener Towns grant to beautify the school's exterior landscaping, giving students hands-on opportunities to get into the garden, learn about native plants, and take pride in their school grounds. The project brought together an extraordinary show of community support — more adult volunteers than any previous school event — and was a wonderful collaboration between the Rose Hill PTO and the Country Club Historic District neighborhood.

## Funding and Costs

| Square Footage Impacted by Greener Towns | Volunteers | Plants Planted | Project Value |
|------------------------------------------|------------|----------------|---------------|
| 3,300                                    | 300        | 364            | \$4,272       |

## Species Highlights

Pennsylvania Sedge  
*Carex pensylvanica*

Rough Dogwood  
*Cornus drummondii*

Sweet cornflower  
*rudbeckia subtomentosa*

## Green Infrastructure Impact

- Created prairie style landscape showcasing tall grasses.
- Created a shade garden with a walking path for students to explore.

The Mighty Mulch Crew!

## Partners

- PlantNebraska
- Country Club Historic District
- The Mahzy Project
- American Arborist

4th grade student plant planting with his mom.
